

Undiscovered Beauty ~ Port Greville, one of our wonders

Did you know that a wonderful world of undiscovered beauty, serenity and scenery are awaiting you just minutes west of Parrsboro?

Depending on where you live, you are just 1 hour or so away from the beautiful Shore Drive along Highway 209, west of the Town of Parrsboro. The streets are adorned with scenic street banners showing pride in the communities and showcasing the incredible untouched scenery.

In Diligent River be sure to stop in and visit Arlene Collin's Art Gallery. The gallery features Arlene's own art works of nature and wildlife.

Travel to the Diligent River Wharf area to view the peaceful scenery and lookoff.

Just down the road you will find Krista Wells art and jewelry studio. (Just follow the signs). You will also be able to visit or talk with Michael Fuller, who own the

Famous Pagasus Paragliding School right in Diligent River.

Next down the road you can proceed to Fox Point Look off, overlooking Cape Blomindon and Cape Split. Fox Point is where local dulse is harvested. Now you will be entering Fox River and Port Greville.

Fox river is where Acadian Dykes have been uncovered and hopefully will be restored in the near future. You can enter the beach areas of these two communities at either Cochrane Rd. or Merriam Rd.

Port Greville Beach is the location of the former Wagstaff and Hatfield Shipyards of years ago. The buildings and wharves have been taken away by nature, but miles of coastal area remains as reminder of the untouched beauty. Port Greville is home to the Coach House Bed and Breakfast, the Ebb Tide Bed and Breakfast and Shaws Country Antique Market. At the antique market you can find anything and

Port Greville Harbour at high tide showing the boat launching ramp. (Shaw Photo)

everything, you wish from china, antiques, artworks, jewellery and the local NSLC Agent Outlet.

Next on your journey you will find the Alberts Corner Studio Gallery, feature local black and white photography done by in-house photographers. Just a shore distance further along you will find Gavendail's Studio and Gift Shop. Local artist, Gail Montgomery-Clarke will probably greet you at her studio.

Just around the next corner you will find the Age of Sail Museum and the original Port Greville Lighthouse. Minutes away you will find Wards Brook Beach, where you can walk for miles and will be able to view the famous Brookville rock, subject for many photographers around the country.

This route will continue on the scenic drive to Spencers Island Advocate and Joggins. This route has been described by many with such great adjectives as "paradise", "untouched beauty" and the "Best Kept Secret in North America".

We invite you to stay "local" and plan a day trip to found out for yourselves what you have been missing and what we have to offer.

Editorial proudly produced by the Shore Drive Community Development Association, whose motto is "To Build a community that demonstrates a good neighbor spirit, who care about each other, our homes, our land, our shore, and welcomes others to come to experience the quality of life we are all fortunate to enjoy."

KRISTA WELLS
She's short.
She hates Brussels sprouts.
She makes neat stuff.
