Put Emergency Kit in your vehicle

By Chris Urquhart

If you are one of the many folks traveling around this summer, be sure to have an Emergency Kit along with you in your vehicle.

This kit should contain at least: a blanket, candle in a deep can with matches, extra clothing and shoes, First aid Kit with seatbelt cutter, flash-

light (wind-up or battery powered), food that won't spoil (such as energy bars), list of contact numbers, radio (wind-up or battery powered), small shovel (scraper and snow brush in winter), warning light or road flares, water and a whistle.

Other items you may wish to keep in your vehicle are:

antifreeze, windshield washer fluid, fire extinguisher, road maps, sand, salt or cat litter (non-clumping), tow rope and jumper cables. Once you have these items safely packed away in your vehicle you can travel knowing that you will be safe in most if not all emergencies. A cell phone to call 911 might be something else I would want with me!

Spring must be around here somewhere? It has been a long winter for my other furry friends, too. (Harrington Photo)
