

**Solar Colchester Preferred Contractors Company and Product Information**

*Continued from page 23*  
permitting.

Ready Racking installs our mounting systems. Postech Truro installs screw piles for our ground mounted solar PV systems. More information about Supernova Energy can be found at [supernovaenergy.ca](http://supernovaenergy.ca).

**Skylit is a different kind of solar company**

We install the best solar panels available, period. Our all-black REC Alpha Pure panels not only look incredible, but they lead the market in efficiency rating, lowest degradation rate, and the best warranty of any solar panel available anywhere in the world. Our work is unrivalled, with installation quality you expect from a premium purchase. In addition to our superior products and exceptional service, we can offer a unique financing program designed to put more money in your pocket.

We are using REC Alpha Pure Solar Panels in our residential installations. We're the exclusive supplier of this product, and the only certified REC Solar Professional, in Atlantic Canada. We've been in business since 2016, and in addition to our office staff we employ 2 red-seal electricians & 2 electrical apprentices and solar crew of 6. We do not sub-contract, all work is done in house by our industry professionals.

The REC Alpha is a member of REC's latest multiple award-winning family of trailblazing solar panels, empowering you to take full advantage of solar energy. Packing in cutting-edge technologies to deliver higher power density, stunning aesthetics, and minimal environmental impact - all with the renowned reliability of REC - REC Alpha is the solar panel of choice for home solar.

The website states more energy from dawn to dusk with the REC Alpha 380W delivering 26% greater annual yield than conventional 320W panel.

**NS Sure Electrical now employs 6 people**

NS Sure Electrical, Parrsboro provides a wide array of electrical needs including: house wiring,

standby generators, excavation work, grid tied solar projects and is included in Colchester's Preferred List of Contractors for renewal energy projects.

NS Sure Electrical has been in business for 8 years initially starting out with the owner, Andrew Adshade, and one other employee. Since then, the company has expanded to employ a team of six people: Two red seal electricians, two third year apprentices, office administrator, and an excavator operator.

With electrical experience in both residential and commercial jobs, Adshade says, "We have been rapidly expanding into the solar market over the past several years. We believe solar is a big part of the future and are eager to provide our local community and surrounding area with viable solar power". He added, this is why we are proudly partnered with Efficiency Nova Scotia and the exciting new PACE program making it possible for more people to go solar.

In order to provide the best customer service along with quality control, every part of the solar installation is done in house. From system design to trench digging, you can be sure that everything is taken care of from start to finish.

Caleb Guenette, Generac Installation & Service technician with NS Sure Electrical says the in-house designed systems feature the QCell L-G8 430W for Solar Panels and the APS YC600 or APS QS1A Micro inverter. Additional information can be found at the company's website:
