

Doug Bragg Enterprises of Collingwood.

Acadian Machine Works Ltd. has compact cleaning lines that run on 110 volt and can be hauled behind a pick-up truck.

James Doucette, Acadian Machine Works Ltd., demonstrates the walk behind self propelled harvester to Kevin Gillis and Leonard McBurnie.

Tony MacDonald, of T.G. Mac Sales Ltd is the new local dealer for JR Tardif Equipment.

Speakers at the Maritime Wild Blueberry Field Day

Isabelle and Lauren Shears have turned a Science Fair Project into a summer business with their company, The Berry Best. Their trial project involves selling Wild Blueberry dyed t-shirts and scrunchies. They hope to eventually use waste products from Oxford Frozen Foods to make the dye.

Peter Rideout, Executive Director of WBPANS, gave an interesting presentation on his recent trip to International Blueberry Organization's 2019 Summit in British Columbia.

Rene Chaisson, BNBB President brought greetings from New Brunswick.

John Cameron gave an update on WBANA Canada activities. He was excited to announce the Health Summit will be held in Canada this August for the first time. The focus of the Summit will be on neuroscience as nine researchers from around the world gather in Halifax.

Leigh Jenkins, PEI Wild Blueberry Growers Association Director, brought greetings and an update in harvest expectations on PEI.

Peter Burgess, of Perennia says he expects a better crop in NS than last year but does not expect total harvest to come close to the large 40 million pound crops from a few years ago.

Mike Melanson expects the New Brunswick crop will be better than last year with no early frost on the fields this year. The concern will be getting all the berries harvested before a frost in September.

WBPANS President Barron Blois noted the NS crop experienced some winter damage due to the lack of snow cover but hoped a stronger price and a reduction in inventory might bring some good news on price at harvest time.

JR Tardif, a leader in flail mower technology designed for blueberry fields in the Maritimes, had samples of machinery on display at the annual Wild Blueberry Producers of Nova Scotia (WBPANS) 2015 Field Day.

JR Tardif is a leader in flail mower technology designed for the Maritime Provinces blueberry fields. We have responded to customer's requests for a 54" flail mower to fit onto 25 hp tractors. We work with you to increase the yield from each acre, fill in bare spots and help make you more money. We can also supply you with chopper mowers, ToolPost Puller mower, stump grinder, flail mowers and now flail mowers for compact tractors.
