Keeping You in Comfort

Newmac has a reputation for developing high efficiency furnaces and boilers that our customers demand. Our multi-fired units are competitively priced and built under strict ISO 9001 standards to ensure years of dependability. All units are backed by the best warranties in the business and Newmac offers technical support that you can count on. Call today or visit our website for more information.

NL/NV SERIES Low Boy Oil Fired Forced Air Furnaces*

- Features**
- Firing range 77,000 to 326,000 btuh
 - Sealed Vent approved to 177,000 btuh
 - A.F.U.E. rating up to 86.1%
 - Ceramic fiber corbel combustion chambers
 - Direct or Belt Drive models

- Benefits**
- High combustion efficiency
 - No chimney required
 - Reduced installation time

- Emerson UltraTech™ Variable Speed Motor**
- Better efficiency than existing PSC motors
 - Improved comfort in re-circulation mode
 - A large selection of CFM points, for improved cooling and heating comfort
 - Long term air filtration at minimal energy consumption
 - Smooth reliable starting characteristics ensure the motor starts and turns in the right direction

NBR SERIES Oil Fired Boilers

- Features**
- Firing range 90,000 to 300,000 btuh
 - Sealed Vent approved to 155,000 btuh
 - Wet base and wet back
 - 12 ga SS Chamber A.F.U.E. rating up to 86.7%
 - Swing mount burner door

- Benefits**
- High combustion efficiency
 - Reduced fuel consumption
 - Easy installation of piping
 - No chimney required
 - Ideal for large or small homes
 - Ease of servicing

CL SERIES Combination Wood/Coal and Oil Furnaces*

- Features**
- Firing range 66,000 to 170,000 btuh
 - Preheated combustion air
 - Thermostatically controlled Forced Draft Fan
 - Ceramic fibre combustion chamber
 - Large firedoors
 - Single flue

- Benefits**
- Ideal for new or old homes
 - Increased combustion efficiency
 - Easy servicing
 - High air filtering capacity
 - Easy loading
 - Single Chimney connection
 - Power failure operation
