## Harrisons are now carrying the Kerr models of Heat Pumps.

Heating and cooling at extremely low ambient temperatures as low as -30°C!  
Introductory offer as low as \$39<sup>30</sup> + tax per month on a 12000 BTU model on a standard install through NS Power.

Call Mike at (902) 667-3306 to set up appointment.

### Now-heating & cooling at extremely low ambient temperatures!

Our new **UltraV Series** features a wide operating range with higher capacities in low temperatures.

This allows the unit to operate in the cooling mode with 100% output even when the outdoor temperature is -18°C.

In the heating mode, the unit shows little to no loss of heating capacity, even in extreme winter conditions.

With this broad ambient range, the units are well suited to installations requiring year 'round conditioning, both residential and light commercial.

Operating range:  
Cooling -30°C to 50°C  
Heating -30°C to 30°C

10 years warranty on compressor!  
10 years warranty on parts!  
10 years warranty on labour!
