

# Green Space for Salmon River?

By Maurice Rees

What will be the ultimate use of the Salmon River School site? Will it become a community green space, or will part of it be ceded to the Salmon River Fire Department, or a combination?

That's three possibilities facing Colchester council, who owns the 16 acre site following its transfer to the municipality after the school was closed. Early in 2019, the Salmon River Fire Department made a presentation to council suggesting, although they had not finalized their plans asked council to consider at least four acres for a project they are considering.

On December 3rd, Scott Hagell, and his mother, Giny Hingley, representing a group of Salmon River residents, suggested the site

should become a green space for the community of Salmon River. Their suggestion was for a year-round recreational and culture space, which could include an off-leash dog park; walking/snowshoeing trails; sledding hill; community garden, lawn bowling and picnic area with washroom facilities.

The school sitting on a 16 acre plot was demolished in 2017. 40% of the site is forested and the remainder grassy fields with an aging paved entry way. The site includes a steep hill, overlooking the playground area, has been an iconic area for family sledding events. Other amenities include a soccer field and a fresh water brook along the west side of the property. It was suggested

keeping the trees would allow for a variety of nature enjoyments if existing ATV trails were upgraded to walking trail standards.

In his presentation, Hagell stated many people go to other areas, such as Victoria Park or Halifax to access an off-leash park and furthermore the area is growing with many young families. With a shortage of public space he suggested it would be an attraction to encourage an influx of families with young children.

Councillor Gibbs suggested the idea needs a lot of study and one area to start would be to organize a community meeting. He referenced the early 2019 request from the fire department for at least four acres might create a conflict and was of concern.

Asked to speak on the matter, Craig Burgess, Director Recreation Services, said the existing ATV trails could be improved, lots of signage and drainage installed in some areas. Councillor Wade Parker suggested a possibility might involve development of a "not-for-profit" community organize to move the project forward and to demonstrate the sincerity of the community.

Summarizing the discussion, Mayor Blair indicated there is a process which council must follow and the request for four acres by the fire department must be considered. She ended her comments by suggesting perhaps there is a way to do some things jointly.

The request will be on council's minds and analysis by staff will no doubt be a part of the deliberations.

### NDP & PC's choose candidates

Premier McNeil has a limited amount of time to call a by-election for Truro-Bible Hill-Millbrook-Salmon River following last fall's resignation of Lenore Zann who went on to replace Bill Casey, MP in October's federal election. Late last fall the Conservative's chose Dave Ritcey as their candidate and in late November the NDP chose Kathleen Kevany over Daniel Criss, Joan Keller and Todd White were also seeking the nomination. Kevany is an Associate Professor at Dalhousie University's Faculty of Agriculture, Bible Hill.

### Paving with plastic grocery bags

Sobeys unveiled one of Canada's first parking lots paved using post-consumer plastics that have been diverted from local landfills when it opened a new store in Timberlea on November 28<sup>th</sup>. The amount of recycled plastics used in the mixture is the equivalent of more than 6 million plastic checkout bags.

This innovative approach to plastics reduction and reuse follows the Company's industry-leading commitment to remove plastic grocery bags from all Sobeys grocery stores by the end of January 2020, a change that will take 225 million plastic grocery bags out of circulation at Sobeys' 255 locations across Canada each year.

### Sharing ideas for Budget 2020-21 and future budgets

Nova Scotians can participate in Budget Talks 2020-21 by emailing [budget@novascotia.ca](mailto:budget@novascotia.ca), tweeting @NSFinance, mailing a submission to the Department of Finance and Treasury Board, or speaking with an MLA. Budget Talks 2020-21 will be open until Dec. 31.

"We value the contributions and feedback we receive from Nova Scotians and organizations across the province each year," said Finance and Treasury Board Minister Karen Casey. "Hearing the thoughts and priorities of Nova Scotians is an important part of the budget process. I look forward to hearing the ideas that come forward."

### Sobeys Inc.'s Ultimate Picnic Table

Over the past four months, Sobeys Inc. and Crombie REIT, developer and property manager for the Sobeys Timberlea site, have worked directly with local small business Goodwood Plastic Products, a business based in Stewiacke committed to finding smart solutions for recycling plastic materials, to research and develop the new asphalt pavement mixture. Sobeys Inc. also worked with Goodwood Plastic Products who provided the recycled plastics lumber used for Sobeys Inc.'s Ultimate Picnic Table, that was unveiled on the Halifax waterfront late last month and diverted 60,000 single-use plastic bags from local landfills. The new Sobeys Timberlea store has a picnic bench made from Goodwood Plastic Product's recycled plastics lumber onsite for customers to enjoy.
