

Kerwin Davison's talents and working models have been a favourite of many in Parrsboro and at Ottawa House for decades. This wonderful photo collection of Kerwin's great work is put together by internationally famous photographer Lawrence R. Nicoll.

Proudly presented by the
South Cumberland NEWS

Kerwin has built three trains with one still remaining in Parrsboro and is moved each year for display next to the former town hall.

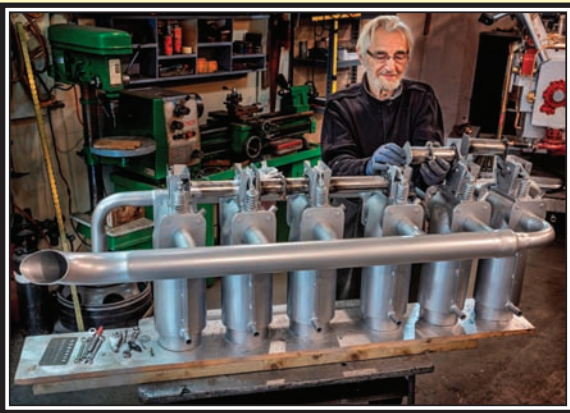

87 year old Kerwin Davison drives his newest project, "Baby Chase" out into the sunlight for a public unveiling at his workshop.

An interesting display of full size models in Parrsboro was Kerwin's replica of #4 train, and a wreck with the 1929 Nash "Rum Runner" he built and drove.

Kerwin Davison is shown with his 1929 Nash "Rum Runner" which he built from scratch several years ago. The replica was complete with bullet holes.

Kerwin Davison shown in his workshop working on the full size replica of the Handley Page V-12 engine which he completed in 2019. The engine was in a plane which crash landed in Parrsboro in 1919.

The V-12 Handley Page engine completed in 1919 on the 100th anniversary of the crash landing in Parrsboro was constructed from a thought and meticulous work by Kerwin Davison just prior to his 87th birthday.

Keeping each other safe keeps us moving forward.

SAFELY FORWARD

With more places open and more people out, keeping each other safe is more important than ever. Respecting the rules will keep us moving forward.
