

Towards the end of May, at the base of Kirk Hill Road, once again the bee keepers were busy getting their charges ready for a new season. The air was full of bees as I drove by, but with all the local fields of dandelions I am not surprised.

Petition for Signage Accepted

At its June 21st meeting, Cumberland Council agreed to accept a petition for signage at Exit 1. A letter from Karen McKinnon on behalf of area residents accompanied the petition. The contents of the letter is as follows.

Cumberland County Council, We, the residents and business owners of Cumberland County, hereby petition the county council to revisit the signage at the Exit 1 entrance from the Trans Canada Highway into Amherst.

At present, the first thing tourists see when they arrive in our town via that entrance is unkempt roads, ditches and signage.

Amherst is the first stop in Nova Scotia via the Trans Canada Highway, and the hereby petitioned would like to see differences made in the way of new signage, cleanup, and revitalization.

We have a large tourism industry which takes this exit, and we feel the state it is in currently does not represent us as a community.

We, as businesses, work very hard to promote tourism around the county, and in return we request the help of the county to help promote us - and signage would be the first step.

We do expect the county to meet on this issue and come up with an action plan preferably before the tourism Season starts.

Thank you and we look forward to hearing from you soon.

*Karen McKinnon
(Owner Maritime Mosaic)*

Recommended Motion from staff stated:

Council accept the signage petition of residents and business of Cumberland County.
