SHADE-O-MATIC
Innovation. Inspiration. Installation.

We've moved to the main floor and lowered our prices! NOW YOU CAN ALL COME!

In May of this year we made the decision to relocate to the lower level of the same building (Former Kia Location) to help serve our customers better. Now anyone can reach us with ease.

My commitment to our customers is still the same; our customers will receive the best possible products, service, and installation we can provide at a reasonable price. The premise is nothing new but seems to be lost with the Big Box Stores and some retailers that think you owe them your business. This will not happen at Cox Hometown Flooring.

As we continue to grow so does our product line up. We have partnered with, what we think are the best manufacturers, distributors, and suppliers in the industry. Some of our newest partners are Grabber Window Fashions, Shade-O-Matic Blinds, Beaulieu Canada, and Kraus Carpet Mills. This is not to say that we have forgotten our old friends like Tarkett Inc., manufacturers of the revolutionary "Fiber Floor", Tandus (Crossley Carpet Mills), Shaw Industries, Goodfellow Wood Products, Mohawk Carpets, Mannington Mills, Olympia Tile, Elegant Flooring, Ceratec, Ceramcan, and Royalty Hardwoods, manufactured in PEI. Put all of this together with fantastic people like Mike Bates, Marion Bates, Keith Sutherland, Jesse Johnson and myself, Mike Cox. (I'm told I had a bit to do with this.)

We have available the latest fashions, styles, colours, and designs, and will continue as long as you want us to.

You will never find any pressure to purchase and if you visit us 1, 5 or 10 times to make the correct decision for you, take your time now rather than "Oh S*@t" after a rushed choice. So if you are just getting ideas or the time may be right, drop in have a look around and take some samples home, ask questions.

See us first or see us last, but make sure you drop in and see us.

Thanks a bunch for your support the last 5+ years.
