

# BEFORE

# AFTER

On June 19th, 2011 when Pastor Larry Tirrell was leading the congregation in prayer lightning struck the steeple of the Bass River Baptist church causing extensive damage above the bell tower. The damaged steeple is shown in the top photo taken last summer by Linda Harrington. Later in the fall, Gerry Turner Contracting was engaged to fix the repairs. As with many church steeples they are shortened when major repairs are needed. The "after" photo taken by Maurice Rees, shows the steeple above the bell tower was removed, and a new roof made to retain the bell tower. Other work was completed to fix any needed repairs.

## Short February

*The long dark days of February  
The shortest month of all  
Adds another depth to winter  
With the north winds chilling call*

*Ground hog day is far from truth  
As everybody knows  
The ground hog sleeps through the winter  
Avoiding frost and snow.*

*Valentine's day is for lovers  
With candy treats and roses  
Breaking up the winter cold  
And soothing reddened noses*

*This short month will soon away  
As we wait for spring  
Full of thoughts of warmer days  
And nesting birds that sing.*
