

Cock-a-doodle-do! Might be the only time a rooster is observed in this poultry house. The fine looking gentleman made a guest appearance during the Open House.

The automated manure removal system will see these white collection rolls run by a 24" inch conveyor belt, supplied by Northumberland Silos.

The automated manure removal system, easily cleans waste from beneath cages and uses a 24" inch conveyor belt, supplied by Northumberland Silos, to move the material out of the building.

# WE DON'T MEASURE SPACE IN INCHES!

There are many things to consider when creating quality space for your flock, such as proper ventilation, a fresh and even supply of feed and water, quality litter, perch space, and nest placement... just to name a few.

We focus on providing quality space for your flock so they can thrive and have a healthy and highly productive life.

Spread the news of your Community
