

Residents of the Parrsboro area may have been wondering what's in the sky. On Wed. Oct 17th GEOTECH was scanning over the Chignecto Ridge and Farrell River Valley. The gear is approximately 150 feet above the surface to detect minerals including gold. It was an impressive piece of flying as the copter pilot maneuvered above the new power lines at Parrsboro that FORCE installed to carry the tidal power that will eventually be provided. On Thurs Oct. 18th the same crew was seen working the ridge around the Moose River Area. (Lawrence R. Nicoll Photo)

MINING & QUARRYING Exports valued at \$105-Million

Mining and quarrying is one of Nova Scotia's leading export industries. The industry exports about one third of its production to the United States each year, or about \$105 million worth of minerals. Nova Scotia's easy access to shipping by sea, and close proximity to the United States, makes it an important supplier to the US construction industry.

Nova Scotia's mining and quarrying industry is a key creator of jobs and prosperity for Nova Scotians providing 6,300 jobs, mostly in rural areas, and contributes \$500 million to the province's economy each year. Mining is the highest-paying natural resource industry and one of the highest-paying of all industries in the province.

Geotech Ltd have been contracted by Cogonov Inc. to conduct a Helicopter Airborne Geophysical Survey as part of a gold exploration program on four blocks of land in the Parrsboro area as shown in the above map. (Submitted)

Half way through the East Montrose Road towards Londonderry motorists need to be careful as a heavy rains earlier in October have washed the road bed away from a culvert. The three holes on the roadway are about eighteen inches deep. (Rees Photo).

A number of pylons mark the dangerous area of the East Montrose Road, when heavy rains have washed the road bed away from a culvert. Branches from nearby bushes mark the three holes. (Rees Photo).

This little guy was enjoying the fall sunshine. Hopefully he takes cover before hunting season. (Harrington Photo)

Onslow Belmont Fire Brigade 911 CIVIC ADDRESS PROGRAM

In an effort to provide visible signage of civic address's for emergency response units we are continuing with the O.B.F.B. 911 Civic address program. The signs include the civic address assigned to your home. They are located at the end of the driveways in a clearly visible location so they can be easily seen.

The civic numbers are the numbers that the Fire Brigade, Police & Ambulance look for when called to your home, so they are very important. If you wish to purchase one please clip this application and bring or mail it to the fire hall or call 897-6025.

The cost of the sign is \$25.00 installed

Cheques should be made payable to **Onslow - Belmont Fire Brigade, Civic Numbers CIVIC SIGN APPLICATION**

Send to: Walter McElhinney, 19 Cutten Lane, Central Onslow, N.S. B6L 5B7 or Phone 897 - 6025

Name: _____

Street: _____

Civic Number: _____ Number of signs needed: _____
