

The customer counter has enough room for three attendees and still lots of room to work. (Rees Photo)

Customers will appreciate the vast amount of natural light in the new showroom, and off to the side is a customer relaxation area with privacy separate from the showroom. (Rees Photo)

In amongst all the Hallowe'en decorations, Kyle points to one of the very popular Kenwood stereo models. (Rees Photo)

Kyle shows off the Weather Tech vehicle mats. He ordered a large stock, and it has been selling well, because the product is being heavily advertised on television. (Rees Photo)

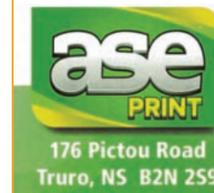

Need new rims? You'll find a large selection at Creative Auto Images. (Rees Photo)

Hands Free Driving – a Boom to Business

By Maurice Rees

Public campaigns and stringent monitoring by police forces to ensure everyone on a cell phone is using a hands free system has meant a large increase in business for stores like Creative Auto Images. Their technicians can also install more complicated systems for larger commercial vehicles. Bluetooth cellular hands free solutions are by Parrot, Fonexion, and Blue Sky.

Creative Auto's product line is much more than stereos, remote starters and other popular items. They have an extensive selection of Custom Truck accessories which includes: Back Racks, Step Tubes, Fender Flares, Tool Boxes, Tonneau Covers, Cruise Controls, Air Intakes, Bug Flectors, Vent Shades, Exhaust Systems, Lighting, Power Programmers, and Wheels to mention a few.

Enthusiasts who wish to dress up their car can choose from a large selection of Custom Car accessories, to enhance your ride, include Cruise Controls, Vent Shades, Bug Flectors, Lowering Kits, Body Kits, Spoiler, Air Intakes, Exhaust Systems, Lighting, and Wheels.

If a vehicle owner has a vision of something they wish to do to their vehicle, but haven't seen it on the shelf, contact the customer representatives at the sales counter and they can source it for you. Over the years, Kyle and his staff have developed a niche of working hard for the customer to find what they require. Kyle says, "We also have added GPS navigation, per-

formance tires & many other items to help you dress up your vehicle".

Creative Auto's installation technicians have 20+ years of experience. With three bays in the main building, accommodating larger vehicles, and two more bays in a secondary building at 100 Pictou Road, installation capacity will not pose a problem.

The installation department installs driving lights, remote starters, speakers, video systems, undercar lighting, ventshades, alarm systems, sub-woofers, amplifiers, hood deflectors, stereo systems, power doorlocks, power trunks, satellite radio, gps navigation systems, incar lighting, backup cameras, cb's, & cell phones.

Atmosphere Electrical Inc. is now one of only a few electrical contractors on the east coast that is Eaton Certified.

Here is a description on what Eaton certification is and why Atmosphere Electrical is your best choice for electrical contracting in Central Nova Scotia.

Eaton Certified Contractors possess excellence in educating you as business or homeowners on electrical safety, new technologies, and are trained thoroughly on industry leading Eaton brand products. Most products installed carry lifetime warranties!

Congratulations to Kyle and his staff. We are pleased to have played an important part in the relocation of Creative Auto Images to 100 Pictou Road, Bible Hill.
