Mine Engineer

Reporting to the Senior Engineers, the Mine Engineer carries out mine planning, geotechnical and related functions. The incumbent works with other engineering, geological and production personnel, as well as contractors, to assist and ensure implementation of plans. He/she initiates, carries out and coordinates mine projects to maintain and improve the efficiency of PCS in a safe, healthful and environmentally responsible manner.

The Mine Engineer should be, or can register as, a member of Association of Professional Engineers and Geoscientists of New Brunswick with a mining or geological engineering designation. Experience in mining industry working in an engineering environment is a plus. A strong knowledge of mine planning software, CAD, GIS and related programs is essential.

The incumbent should have good written and oral communication skills, analytical abilities, interact readily with co-workers, be a self-starter and have a strong interest in new technologies to support the process of continuous safe, healthful and environmentally responsible mining.

Interested candidates may submit resumes in confidence by October 4, 2011:
 Wendy Osborne - Human Resources Coordinator
 P.O. Box 50388 • Sussex, NB E4E 9L2
 Fax: (506) 432-4479 • Email: wendy.osborne@potashcorp.com

The successful candidate may be required to undergo a background check. All safety sensitive positions require a substance test in accordance with PotashCorp Policy. We thank all those who apply, although only those candidates selected for an interview will be contacted.
